

ZORRITO MINERALS

Design References & Creative Direction Supplier Dossier Development Guide

Project Goal

We want to create a professional corporate dossier that can be presented to major companies such as Pet Valu, Pet Supplies Plus, Costco, Halliburton, PetSmart, Chewy and industrial distributors. The objective is to present Zorrito Minerals as a serious international supplier with professional branding and strong technical credibility.

Design Style

Modern, premium, corporate, industrial, clean, minimal and easy to read. Use large professional photography, infographics and icons. Avoid a marketing flyer look; instead, aim for the appearance of multinational industrial companies.

Reference Companies

Imerys – Corporate brochures, annual reports, photography, executive summaries.

Website: <https://www.imerys.com>

Minerals Technologies – Product catalogs, technical information and industrial design.

Website: <https://www.mineralstech.com>

Sibelco – Corporate image, sustainability, mine photography.

Website: <https://www.sibelco.com>

Bentonite Performance Minerals – Bentonite applications and technical communication.

Website: <https://www.bentonite.com>

Halliburton – Technical documentation and industrial branding.

Website: <https://www.halliburton.com>

Recommended Dossier Structure

1. Cover
2. Executive Summary
3. About Zorrito Minerals
4. Mining Operations
5. Processing Facilities
6. Manufacturing & Packaging
7. Product Portfolio
8. Industries We Serve
9. Quality Control
10. Export Capability
11. Private Label Program
12. Sustainability
13. Why Partner With Us
14. Contact Information

Images Required

Mine, processing plant, packaging line, warehouse, products, pallets, containers, laboratory, team, drone photography and maps.

Documents to Design

Corporate Brochure, Product Catalog, Supplier Capability Statement, Company Presentation, Product Data Sheets, Technical Data Sheet template, Safety Data Sheet template and Private Label Presentation.

Final Objective

Every page should answer a buyer's question: Who are we? Why trust us? What do we produce? How do we produce it? Can we export? Can we scale? Why choose Zorrito? The finished material should position Zorrito Minerals as a reliable long-term supplier for North America.
